

Bursary Sponsorship Program

The BC Electrical Association has been very active in promoting careers in the electrical industry. Since the inception of the Scholarship and Bursary program we have awarded over \$400,000.

Members take pride in the fact that we support the future generations of our business, and feedback indicated that members wanted to support students directly furthering their education within the electrical industry.

The BCEA Bursary Program supports students pursuing a career in electrical, marketing, electrical engineering and business. BCEA Bursaries are available to both college and university students.

**Download Bursary Applications
from the BCEA website at
www.bcea.bc.ca**

**Applications are due
July 31, 2017**
